# Assembling outdoor power supply

## Overview

---

Mid-Grade Battery Option (AGM): 100 Amp Hour AGM Battery Highest Quality Battery Option (LiFePO4): LiTime 100Ah Deep Cycle LiFePO4 Battery 100 Watt Solar Panel DeWalt Tool Box Solar Charge Controller Fuse Block USB Socket Panel (I Purchased).

Now that you've gathered everything you need for your DIY solar power station, it's time to get building! I began by drawing up a crude wiring.

We'd love to hear from you and see how your DIY power station turned out! DM us a photo or video of your project in action. Have any questions?

.

One important factor to consider when building this DIY solar power station: Since I've gone with a flooded lead-acid battery, it is extremely important to not drain the capacity past 50%. This is due to something called depth of discharge (D.O.D). Flooded.

What supplies do I need for a DIY solar power station?

Fuse Block USB Socket Panel (I Purchased 2) Main On/Off Switch Battery Capacity Monitor SAE Solar Socket 10 AWG Wire Heavy Duty Velcro The next supplies I already had. Here are links to similar products: 16 AWG Primary Wire Ring Connectors Now that you've gathered everything you need for your DIY solar power station, it's time to get building!.

What should I consider when building a DIY solar power station?

One important factor to consider when building this DIY solar power station: Since I've gone with a flooded lead-acid battery, it is extremely important to not drain the capacity past 50%. This is due to something called depth of discharge (D.O.D).

Can a 12V solar panel be used for outdoor projects?

Learn how to assemble a 12V solar panel from cells, which can then be used for some outdoor projects in the future! The inspiration can come from

anywhere — perhaps an especially power-hungry weather station or it's FPV rover inspired.

Why do you need an exterior socket?

Correctly installed, an exterior socket is a very useful facility to have. It means you no longer have to run extension leads from inside the house, with the potential for tripping over them! It enables you to run electric garden equipment such as a lawn mower, hedge trimmer and various other items including power tools, in a far safer way.

What battery does my DIY power station use?

My DIY power station has 1,464 watt hours of energy using a 122 amp hour flooded lead-acid battery from Wal-Mart. This battery is no longer available, however you will find alternative 100 amp hour AGM and LiFePO4 batteries linked below.

Who should install an outdoor socket?

With this in mind, the installation of an outdoor socket should only be carried out by an experienced and qualified Part P registered electrician that has the skill and knowledge to do it correctly, test it and then sign it off with a minor works certificate when complete.
