

SolarInnovate Energy Solutions

European photovoltaic tile manufacturers direct sales

Overview

What are Photovoltaic tiles?

Thanks to their elegant appearance, the absence of an aluminium frame and their sturdiness, Photovoltaic Tiles are designed for architectural integration (BIPV), replacing or integrating traditional roofs. The double laminated safety glass makes it possible to walk on Photovoltaic Tiles, which form an indestructible roof.

What is a solar roof tile?

The solar roof tile replaces conventional roof tiles and integrates seamlessly into the roof structure. Solar roof tiles from Schweizer are mounted directly on the roof battens, similar to traditional roof tiles. This eliminates the need for an additional substructure.

What is eTile solar roof?

Meet the eTile solar roof series - aesthetic photovoltaics integrated into the roofing. Polish manufacturer, premium solutions for the demanding.

Where can I buy Soltile roof tiles?

The uniform visible surface also facilitates visually attractive roof integration. Soltile is currently available in Switzerland from the company AGZ-Ziegeleien and in Scandinavia from Skarpnes (under the brand name Vatio). The market launch in Germany is being planned.

Who makes solar panels & facades?

Roofs and facades truly stand out with modules produced using colored glass by Kromatix™ (solar glass innovated by SwissINSO) or technology by Solaxess, where solar cells are almost invisible. Metsolar is an European solar module manufacturing company with exclusive production possibilities.

Where can metsolar BIPV solutions be used?

Metsolar BIPV solutions for roofing and solar roof tile projects are already successfully implemented and generating energy across Europe in Scandinavia region, Middle East and North America. Our flexible manufacturing allows us to deliver visually appealing and cost & energy efficient roofing solutions.
