Where can I get a circuit breaker installation & repair in Sydney?

MrSparky's licensed and experienced electricians provide fast, safe circuit breaker installation and repairs in Sydney. Book online today!

Do Australian homes have circuit breakers?

Most Australian homes feature a system of electrical circuits controlled and protected by circuit breakers. Breakers are all located in the main service panel box within the home. These circuit breakers can trip as a safety precaution when there's a problem with the flow in a particular circuit.

Where are electrical services available in Sydney?

Mr Sparky's electrical services, including our circuit breaker services, are available all over Sydney. We cover areas like the inner west, inner city, north sydney, western suburbs, eastern suburbs, and the northern beaches.

What does a circuit breaker do?

That's where circuit breakers come in. A circuit breaker is an automatic electrical switch that is triggered when there is excess current flow or wiring short circuits. The circuit breaker's one function is to interrupt current flow as soon as the fault is found. This reduces the chance of an electrical fire and further household damage.

Can a circuit breaker be replaced?

Yes, a circuit breaker can be replaced, but it must be done by a licensed electrician. Electrical work requires expertise to ensure proper installation, wiring, and safety.

Why is my circuit breaker tripping frequently?

If you're experiencing frequent tripping of your circuit breaker, along with

other issues like burnt smells, buzzing sounds, or flickering lights, it could be due to overloading, short circuits, faulty breakers, loose connections, or wiring problems. Contact Mr. Sparky Electrical Services for an inspection to address the issue.
