How many hydrogen energy stations are there in Peru

Overview

There are currently no hydrogen fueling stations in Peru. July 30, 2021. Is there a green hydrogen roadmap in Peru?

We present the proposal for a green hydrogen roadmap in Peru to the Energy and Mines Commission of the Congress of the Republic of Peru, to the Presidency of the Council of Ministers, to the Ministry of Energy and Mines and to the Ministry of the Environment.

Where can I find information on hydrogen refuelling stations?

LBST has operated the database h2stations.org since 2005, offering the most comprehensive information on hydrogen refuelling stations worldwide. Data is collected and updated continuously from multiple sources on a best effort basis.

What is H2 Peru?

“Through its proposals, H2 Peru seeks to support the Peruvian State in this green hydrogen race, which is to build the national strategy, develop the operational framework and encourage the appearance of pilots and projects, and promote the deployment of energy of the future in our country .”.

Does [h2stations](https://h2stations.org) provide information on the availability of a hydrogen station?

[H2stations.org](https://h2stations.org) does not provide information on the current availability of a hydrogen station, but does provide a global overview of the existing, planned and completed infrastructure. If you wish to submit station data and/or images, please supply such according to this template and send it to webmaster@h2stations.org.
